

# MSI Ink Stamping

MSI SALES DEPARTMENT (517) 373-4277

February 14, 2006

## Ink Stamping Pricing Grid

Clothing imprinting charges are calculated by multiplying the number of items to be imprinted by the appropriate price per item amount, and then adding the appropriate set up charges.

Include black and white camera ready copy with order. Also, on your order include color (s), location (s) and imprinting size (s) on garment (s). Ink Stamping uses Pantone colors. Ink Stamping is available in most Pantone colors.

### **SILK SCREENING SET UP CHARGE per Screen: One Time Fee: \$25.00**

Each color and location on a garment requires a separate screen.

**(EXAMPLE: A red and white logo imprinted on the back and chest pocket of a shirt. The set up would require four screens and the set up charge would be \$100.00)**

### **Price per Item Imprinted**

Select the quantity of items to be imprinted and then find the number of colors. Multiply the number of items to be imprinted by the value indicated.

| Quantity | 1 - Color | 2 - Color | 3 - Color | 4 - Color |
|----------|-----------|-----------|-----------|-----------|
| 1 - 12   | \$1.45    | \$2.90    | \$3.35    | \$5.80    |
| 13 - 24  | \$1.10    | \$2.00    | \$2.90    | \$3.80    |
| 25 - 48  | \$0.80    | \$1.30    | \$1.80    | \$2.30    |
| 49 - 200 | \$0.60    | \$1.00    | \$1.40    | \$1.80    |
| 200 - UP | \$0.45    | \$0.75    | \$1.05    | \$1.35    |

**NOTE: The Ink Stamping process imbeds ink directly into clothing for long lasting results.**
